Subject: Re: Government Oversight Committee

Mr. Leto,

We appreciate the Committee's willingness to listen to suggestions for the improvement of the inspection program for permanently moored vessels (PMV's).

The Department procedures for the proposal of legislative changes require the approval of the Natural Resource Commission and the Governor's Office. The development of our legislative package for 2006 is past the point at which it would be appropriate for us to evaluate proposed statutory revisions in regard to the PMV program. The Department feels it would be best to proceed with the program, as developed, and come forward with proposed changes once we have the opportunity to evaluate the effectiveness of the existing program.

To all parties,

Attached is a listing of questions and requests for additional information from the recent Government Oversight Committee meeting. You are asked to provide electronic responses for the Committee as soon as possible but no later than October 25. If you need additional time to respond or need clarification about any requests, contact me.

Thank You,
Sam Leto
